<b>Aim of Program</b>	:- <b>Faculty Training Program</b> strengthens the professional development of the faculty members and administrators who deal directly with students. Our goal is to help these educators increase the effectiveness of their teaching, especially in undergraduate programs, so that they are better able to guide students on journeys of inquiry and discovery. Research shows that effective teachers are the most important factor contributing to student achievement. Although curricula, reduced class size, district funding, family and community involvement all contribute to school improvement and student achievement, the most influential factor is the teacher. Choosing effective teachers is critically important for schools trying to improve their performance.
