Case Study Competition

Session: - 2020-2021

Organizing Committee	:	CMCS Event Organising Committee
Organizing Members	:	Ms. Kalyani S. Chandore Mrs. Sonam Tungenwar
Date of Event	:	24-Aug-2021 & 25-Aug-2021
Event Mode	:	Online Mode
Present/Viewer's	:	7 Student
Judges of Event	:	Mr. Shubham S. Kane

Aim of Program : The basic purpose of organizing this competition is to explore the ideas, imagination and thoughts of students. A case study is a detailed study of a specific subject, such as a person, group, place, event, organization, or phenomenon. Case studies are commonly used in social, educational, clinical, and business research. In a case study, nearly every aspect of the subject's life and history is analyzed to seek patterns and causes of behavior. The hope is that learning gained from studying one case can be generalized to many others. Unfortunately, case studies tend to be highly subjective and it is sometimes difficult to generalize results to a larger population.

A case study can have both strengths and weaknesses. Researchers must consider these pros and cons before deciding if this type of study is appropriate for their needs.

One of the greatest advantages of a case study is that it allows researchers to investigate things that are often difficult to impossible to replicate in a lab.
