BUILD ENVIRONMENT WITH RAMPS FOR EASY ACCESS TO CLASSROOMS

As the college is situated in the rural area with one building and till the time no differently abled students have been admitted, we have never thought to make provision of electronic lift. But in future if it required we can also think to introduce it. But we do not forget or neglect the problems of such students. At the possible level, we engage the classes of such students at the ground level by considering the problem. In exceptional situation to address the problem, we have made the provision of two ramps for such students.
