ABOUT BEST PRACTICE

Title: - Model Presentation Competition.

The nation is built by the young people. And to make the young people good citizens, the students must understand and analyse the current issues. The students are the young mind with innovative minds and fresh ideas. These ideas can be very useful in addressing such issues.

Objective

In this year on account of Republic Day, the Institution organized “Model Presentation Competition” for students. The Institution believes that, a good college not only provides best curriculum to students but also strives to build those students into good citizens with their vision to incubate the values of nationalism social responsibilities and awareness in social issues. The college has started the activity.

The objective behind implementing the concept is to motivate the students to show and spread the realization on the efforts. The great nation is built by the good citizens who realize the duties and responsibilities towards the nation. The events focus on gaining student’s attention towards the current issues and made them realize their duties and responsibilities as a citizen towards such issues.

The Context:

Being a Computer science and Management College, the students have a good potential for problem identification and problem solving.

These students being management students will be managers, employers in coming future. They will be the fresh legs to run the nation towards the development.

If these students are made aware about the current issues and affairs these students can make a major difference by their innovative ideas.

Ref. No. _____

Date :- _____

These students have a great understanding of their surroundings and the things going around. They can be key persons in addressing such issues in future. This event focuses on giving exposure to the students about such issues.

The Practice:

Every year among the most communicated days, Republic Day is celebrated all over the country to mark the struggle of many freedom fighters and to celebrate the happiness of being Independent.

The institution utilizes this day to spark the good citizen inside the students. There is no other better day to remember the efforts taken for the freedom by our ancestors. The students must realize that the fruit of independence we are testing is harvested by many freedom fighters and the struggles they have taken for independence.

The students must now take the responsibilities of the nation on their shoulders and carry the nation to the top of the world.

In order to so, many events are organized on the occasion on republic, the institution celebrates the day with all of its sister institutions. The day is marked with flag hoisting ceremony followed by patriotic songs, dance etc.

The last event of the day is model presentation competition. Students from various departments participate in the competition. The common topics for the presentation are current issues, historic events, freedom struggle etc. students prepare models using various waste collected from house and laboratory.

Evidence of Success

The success of the event is evident by the number of visitors present at the event to see the student's work as well as the number of participants increased every year.

The college has observed a steady growth in the number of students participating in the model presentation. The student enthusiastically participates in this event. The

Ref. No.

Date :- _____

no of participant has risen to total around 200 students till date. This number shows how this event is liked by the students. As per the suggestions by the sister organizations the college is thinking to allow participants from various colleges to participate in this event.

Problems Encountered and Resources Required.

The main issue of the event is that only the college students along with the sister institutions are allowed to participation. This event has a huge potential for mass group of students.

The students now a day lacks in awareness and is reluctant towards addressing such issues. Model presentation faces the problem of digital games and activities. The students seem to be more attracted towards the digital platforms and games.
